Student Billing

Residence hall and USAC residents are billed by the Accounts Receivable Office for long distance calls. (One resident in each USAC apartment is billed for basic service.) Telecommunications call detail statements are mailed each month.

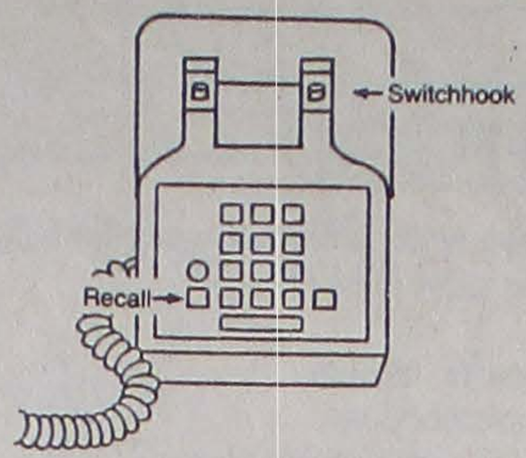

Charges must be paid monthly to avoid losing service and incurring a reconnection charge (non-refundable) of $10.

You are responsible for all calls placed using your authorization code. Do not give this information to anyone!

ISU uses direct dial and international direct dial rates, updated quarterly. Direct dial calls are discounted. international direct dial calls are not discounted.

NOTE: FRAUDULENT BILLING CAN LEAD TO PROSECUTION - It is illegal for a person to charge long distance calls to another person's calling card or authorization code without their permission. Persons placing such calls to avoid payment for service are subject to prosecution and if convicted are subject to imprisonment and/or fine.

Data Network Information

The Iowa State University Data Network provides connectivity between computers, terminals, and local area networks throughout campus. This gives users the ability to access any machine on the data network with the appropriate software.

The ISU Data Network consists of:

- Asynchronous/Synchronous Network
- Asynchronous/Ethernet Gateway
- FDDI/Ethernet Network
- Internet Gateway

An ISN connection provides access to the following:

ISN Information Facility

- ISN Directory of Computers & Services (i.e. CCVAX, Wylbur, Exnet, Cynet, Ethernet, Help, USAC)
- ISN News and Announcements
- ISN to Ethernet Gateway Instructions.
- ISN Inbound and Outbound Modem
- Usage Instructions
- Scholar Instructions

To establish service:

Faculty/Staff - contact departmental Telecommunications coordinator

Students - contact Telecommunications 271 Durham Center

Calls from Off-Campus Modems to the Campus ISN via Inbound Modems

Several inbound modems are connected to the ISN enabling off-campus callers to access the network, via modem, by dialing one of the following numbers:

294-0300	(300 baud)
294-1200	(1200 baud)
294-2400	(2400 baud)
294-9600	(9600 baud)

When "CONNECT" appears:

PRESS <RETURN> until "DIAL" prompt appears
ENTER address you want to call (i.e. CCVAX, WYLBUR, HELP)
PRESS <RETURN>
Log in as usual

When you finish, follow appropriate logoff procedures. If "DISCONNECT" does not appear on your screen, enter the disconnect sequence (<BREAK> <BREAK>).

You should see "DISCONNECT" indicating that you are logged off from the campus network. To reconnect, repeat process stated above.

Calls from the ISN to Off-Campus Modems via Outbound Modems

Using the Campus Network outbound modem pool, callers may also connect to off-campus systems reachable by modem. Outbound modems are Hayes-compatible and support 300-, 1200-, 2400-, and 9600-baud connections, with speed setting controlled automatically. Additional features such as auto-reliable mode and data compression are activated automatically if the answering modem supports them.

To use the outbound modems:

At the "DIAL" prompt:
TYPE MODEM
PRESS <RETURN>
When the Campus Network replies with "ANSWERED", your terminal is connected to an outbound modem.
TYPE ATZ
PRESS <RETURN> to reset the modem to its default settings. When "OK" appears on your screen, you are ready to call out from the network.

To place on-campus calls:

TYPE ATDT + 4XXXX
PRESS <RETURN>

To place off-campus local calls:

TYPE ATDT + 8 + seven-digit number
PRESS <RETURN>

NOTE When placing long distance calls, you must use an authorization code; you will be charged regular long distance toll rates. To obtain an authorization code, call theTelecommunications Office at 294-8585.

To place long distance calls:

TYPE ATDT
8 + 1 + area code (if outside 515)
seven-digit number
W
authorization code
PRESS <RETURN>

The "W" tells the modem to wait for the dial tone before dialing your authorization code.

When the modem connects to the remote system, "CONNECT" (speed) (mode) is displayed, where (speed) indicates the baud rate, and (mode) indicates special features such as RELIABLE or COMPRESSED.

Press <RETURN> a few times to get a login prompt; then log in as usual. When you finish, follow appropriate procedures; then hang up from the modem by entering your disconnect sequence (<BREAK> <BREAK>).

Asynchronous to Ethernet

To access the Ethernet network:

At the ISN "DIAL" prompt:

TYPE	"ETHERNET" or 'ENET'

"The determination of the need for legal services and the choice of a lawyer are extremely important decisions and should not be based solely upon advertisements or self-proclaimed expertise.

A description or indication of limitation of practice does not mean that any agency or board has a certified such lawyer as a specialist or expert in an indicated field of law practice, nor does it mean that such lawyer is necessarily any more expert or competent than any other lawyer. All potential clients are urged to make their own independent investigation and evaluation of any lawyer being considered. This notice is required by rule of the Supreme Court of Iowa."
